Professional Experience

October 2017 - present, Department of Health Policy and Management, Faculty of Medicine, Gadjah Mada University

Health Economics Study Group

I started reading club for recent graduates and undergraduates students who are developing an interest in Health Economics. Weekly activities consists of case study discussion and journal reading.

September 2017- present

Department of Economics, Gadjah Mada University

Research Assistant

I am assisting Dr. Gumilang Aryo Sahadewo and Dr. Rimawan Pradiptyo in a laboratory experiment design for a joint project with Indonesia Deposit Insurance Corporation. The project is interested in looking how individuals (in this context are the Banks) respond to different premium rate and their risk taking tendency in managing third parties fund.

November 2016 – present, Department of Health Policy and Management Faculty of Medicine, Gadjah Mada University

Series Organizer on Health Economics

I designed and organize this seminar series with the intention to discuss recent findings on various topics in health economics which are relevant to current Indonesian policy on the health sector. Invited speakers are established or young and emerging researchers in the field of health economics who are preparing to publish their work in the reputable peer-reviewed journals. The series provide a platform for fostering future research collaborations. This series is supervised by Professor Laksono Trisnantoro of Universitas Gadjah Mada.

November 2015 – June 2016, RTI International Indonesia - PEER Health

Research Assistant

I assisted the UGM-RTI PEER Health study team to prepare for launch of field intervention implementation and participant enrollment where I was heavily involved in furthering the development of the survey instruments. I also provide guidance and support to the SSES/Indonesia Research Assistant to design and implement assigned exploratory research tasks.

December 2013 – May 2014, “Turun Tangan” Research Team

Research Assistant

Conduct analysis and produce presidential candidacy platform related to health policy issue for Anies Baswedan, Ph.D who at the time ran for presidential candidacy in Indonesia. Dr. Baswedan is the former Minister of Education of the Republic of Indonesia and currently the acting Governor of Jakarta.

November – December 2013, USAID KINERJA Papua Project

Papua Health Consultant

The USAID Kinerja-Papua project will launch a study to produce knowledge about the magnitude and parameters of absenteeism among health workers in community health centers (Puskesmas) in four districts in Papua. The consultancy is responsible for conducting secondary data analysis including literature review, obtaining primary data from key informant and resource center in four districts in Papua, and produce analysis from the data available.

March – August 2013, Research Triangle Institute (RTI) International Indonesia

Research and Business Development Officer

I assisted research in health systems area and social policy, particularly assessing health system readiness in the upcoming epidemiology transition and mapping gender based and child violence across Indonesia. My work also involved ensuring that RTI Indonesia

has advanced and update to date intelligence on research and projects market trend through : monitoring global and Indonesia specific client procurement plans; building relationships and networking with key client and partner groups in health sectors research field.
